### MEMORANDUM City of Crystal River

**TO:** Mayor Meek & Members of City Council

**FOM:** Michelle K. Russell-Maynard, Finance Director *MEM*

**RE:** FY2021 Tentative Budget

**DATE:** September 9, 2020

City Council has held two budget workshops for the FY2021 budget development process with the last one held July 16, 2020; both workshops presented a shortfall for General Fund. Staff continued to analyze both the current and future year projections to close this gap. Management also met with Council for Executive Session on August 27, 2020 to discuss potential employee raises. Covid-19 continues to present many forecasting challenges to all governmental agencies.

#### General Fund Overview

During our second FY2021 budget workshop held in July 2020, Council was presented a proposed budget reflecting a \$224,212 shortfall – almost \$130,000 less than the original shortfall proposed at the first workshop in April 2020. My projections are always on a conservative basis, but even more so during this time of uncertainty due to the Covid-19 pandemic.

At the time of our July 2020 workshop, the State had not released revenue projections to any government agencies and continued to emphasize to all “local government officials to be very cautious and conservative in their budgeting for the upcoming fiscal year. There is still much uncertainty as to how the effects of the global pandemic will impact state and local revenues in FY2020-2021”. With this said, they did release their estimates at the close of July 2020 at which time my projections for General Fund were in line with their estimates by \$4,000 – mine less. They have now released updated estimates based on the General Revenue Estimating Conference held August 14, 2020; my projections are unchanged. My revenue projections are 5% - 15% less than the FY2020 revenue projections.

During the July 13, 2020 council meeting Council voted to retain the tentative millage rate at 4.8 mills – the same rate currently in place. As presented during the second budget workshop, the main variance between the FY2020 projected budget and the FY2021 proposed budget for the General Fund was revenue uncertainties accounting for approximately a 3% reduction, enhanced legal and IT services due to contractual changes along with the need for additional software to accommodate for new virtual meeting requirements; and lastly, an increase with the Law Enforcement Contract and FRS rates. All of these provided challenges in balancing the budget, but management had promised to continue to analyze revenue and expenditure projections to balance the budget. I have taken a different approach this year to perform this task so to not utilize reserves – I have analyzed the current year budget to actual expenditures and have pulled back funding across all departments, totaling a little over \$174,000 in FY20 budget reductions. Management had asked all department heads to monitor their spending these last few months due to the uncertainty. Also, several planned projects/events have unfortunately not occurred due to our current pandemic. This budget reduction ranged from a 2% - 15% reduction in Departments' budgets. I have also reduced the FY2021 budget an additional approximately \$89,000 – up to an 8% reduction. With these reductions, I was able cover our shortfall as well as fund for employee raises. The City would still reflect a positive net position for FY2020 of approximately \$180,000. This strategy to balance the budget is new for our City; however, I felt it was important to attack our shortfall this year in this manner. Once we understand our economic status better, we can adjust our budget accordingly.

During Executive Session, Council provided consensus to give all City employees (including Union employees) currently within their pay range a 2.5% raise; this accounts for slightly over \$39,000 additional expense for the general fund. The general fund was able to absorb this increased expense based on my above strategy to balance the budget.

General Fund in summary: FY2020 is projected to close with a net savings of \$360,451 with 48% (\$174,258) of this coming from the funds pulled back to transfer to FY2021 to assist in balancing the budget. The difference of \$186,193 savings will go into reserves. The FY2021 revenues show a slight increase (.15%); this is primarily attributed to the state revenue reductions and a little over \$110,000 more in ad valorem tax. While the budget recap (page 1) reflects a significant increase in expenditures for FY2021 compared to FY2020, this is due to the reduced FY2020 expenditure budget. In analyzing to the FY2020 adopted expenditure budget, there is less than a 2% increase in overall FY2021 expenditures.

#### **General Fund CIP**

There are a few key changes with this budget since the last budget workshop. The state funding has been reduced slightly over 8% (\$19,047) based on the released revenue projections. Several projects have been shifted out or will be rolled forward from FY2020 funding. The Linear Park funding source and most of the project allocation has been moved to the CRA where management believes

it should have originally been budgeted. As noted during the second budget workshop and still reflected within the tentative budget, the City must find other sources of revenue for the various projects as they cannot continue to be funded through the CIP fund balance.

#### **Water/Sewer Fund**

During the second budget workshop, a 2.9% Consumer Price Index adjustment had been reflected for the U.S. Water contract, but our water/sewer rates had not been adjusted accordingly to absorb this increase as well as several other operating expenditure increases. The last customer water/sewer rate increase approved by Council was in September 2013; this increase set forth an increase of 3% per year through September 2017 per the rate study. Unfortunately, the last rate increase was in October 2016. Since that adjustment, the expenditures have out-paced the non-increasing revenues.

On July 13, 2020, Council adopted Resolution #20-R-20 to adjust Water and Wastewater rates 2.9% based on the Consumer Price Index. Staff will be proposing an in-depth master plan and rate study; however, it is recommended this study be completed after the proposed water meter change out has been completed. It is believed the change in the meters as well as possible recommendations may change our rate process significantly. The increase of 2.9% is based on The Consumer Price Index – May 2020, (Expenditure Category, Water and sewer and trash collection services), Bureau of Labor Statistics, US Department of Labor. This will assist in not using reserves.

Management has reviewed the Water and Sewer CIP fund further since July. Several projects have been shifted as well as the two large sewer expansion projects (Indian Water and South Sewer) have been adjusted to reflect a more current projection of the project based on information recently released. Also, the Highway 19 Widening Utility Relocation project has been increased an additional \$25,000 per FDOT communication. The City continues to move forward with the meter replacement program and replacement of the bypass pumps as well as determine alternative funding for the waste treatment plant upgrade.

#### **Sanitation Fund**

This enterprise fund in most years has been a wash – revenues balanced to expenditures. Management chose to allocate funding for the FY2021 budget as several costs including payroll were previously subsidized by the Water and Sewer fund as well as General Fund. The budget presented for this fund in July reflected a shortfall of almost \$80,000 following applying the anticipated 2.9% CPI increase for the sanitation contract with Advanced Disposal as well as funding for the cost to prepare and bid out a new sanitation contract as the existing contract expires in 2021. Council adopted Resolution #20-R-22 on August 24, 2020 to adjust the Solid Waste rates for both residential and commercial customers to include a 2.9% Consumer Price Index along with an adjustment due to a City reallocation of costs for the Fiscal Year 2021. The net impact of this rate increase is almost a wash.

**Community Redevelopment Agency (CRA) Fund**

This tentative budget now reflects a more updated cost projection for Riverwalk. At the time of the second budget workshop, we still used a cost estimate of \$4 million for a two year period with offsetting revenues of \$3.8 million; now, our cost estimate has increased to \$4.8 million for the two year period with only \$4 million in revenue sources. Of these revenue sources, \$2.3 million is still undetermined; the state funding requested in our 2020 legislative budget request did not make it into the State's budget.

Also, the CRA loan payments have been updated to reflect the current principal/interest payments at the 4.2% interest rate. The three-year interest payments only loan termed in September 2019; unfortunately, interest rates had increased at this time. The current year (FY2020) we have paid almost \$373,000 towards this loan. Management is currently discussing options to reduce the interest rate based on the current economy.

As reflected within the tentative budget and discussed during the workshops, we are currently using the CRA fund balance to fund the various CRA projects. There are operating expenditures necessary for this fund; TIF funding is mostly covering them. Along with refinancing the CRA loan, staff will be recommending in FY2022 to reallocate much of the CRA administrative expenses to the General Fund. Unless other sources of revenue are determined, the CRA fund will not be able to fund new projects for the foreseeable future.

**Three Sisters Springs Project**

This enterprise fund has some changes since the July workshop. The refuge road improvement project has now been completed and costs/revenue sources are more accurate. The FDOT revenue appropriation was originally estimated to reimburse 100% of the costs up to \$400,000. Unfortunately, some of the work has been designated as non-reimbursable. However, staff is still working with the State to analyze possible reimbursement of some of the costs; currently, the budget presents almost \$57,000 of non-reimbursable expense.

Covid-19 has also impacted the traffic for the refuge. We still are only able to run at 50% capacity per the State - the van equates to seven people versus fourteen and the trolley equates to fourteen people versus twenty-eight. Fortunately, we are currently experiencing this during non-season, but there is concern of the impact during season should the 50% capacity rule still be in existence. While the revenues did exceed the budget for FY2020 even with the refuge closed for two months, there is concern of the impact should we have to run at 50% capacity during most of the FY2021 season. Staff has reduced a few operating expenditures to balance with conservative revenues.

If Council has any questions, or if anyone desires additional information in advance of the meeting, please let me know. Thank you.

**Department Description:**

The Finance Dept. carries out accounting, clerical, information technology, and financial recordkeeping, ensuring proper control of financial functions. Finance prepares and supervises the City's budget, and assists in the preparation of the annual comprehensive financial report. Finance also has the responsibility for billing and collecting sanitation/water/sewer charges and assessments, accounts payable, revenue processing, grants administration and reporting, revenues, payroll, and risk management.

**Department Description:**

The Planning & Community Development Department is responsible for current and future planning. The contracted Building Official reviews all plans for adherence to City building, mechanical, plumbing, structural, and roofing codes, and issues permits. Planning coordinates all comprehensive plan amendments, rezoning, variances, exceptions, right-of-way vacations, and plans reviews. Code Enforcement is responsible for day-to-day enforcement of the City's codes.

**City of Crystal River  
Community Redevelopment Agency  
FY 2020 Revised Budget vs. FY 2021 Proposed Budget**

The Community Redevelopment District (CRD) is a Special District funded through Tax Increment Financing (TIF) from the County and the City to redevelop and revitalize designated areas in the Redevelopment Plan. It is a Registered Special District created by the City in 1988 in accordance with Chapter 163 of the Florida Statutes, and is overseen by the Community Redevelopment Agency (CRA). The Agency is governed by the City Council. The Board consists of five members. The CRD is a specific geographic portion of the City designated in the 1988 Redevelopment Plan which consists of approximately 252 acres encompassing the traditional downtown portion of the City, representing approximately 6.4% of the total area of the City. The CRA is charged with the administration of redevelopment and revitalization of blighted areas designated in the Plan. This is accomplished through re-investment of the TIF Funds combined with the acquisition and implementation of various grant programs. Additionally, the CRA reviews construction and remodeling projects within the CRD for compliance with established design standards. The Agency is managed on a daily basis by the City Manager, serving as the CRA Director.

**City of Crystal River  
Three Sisters Project  
FY 2020 Revised Budget vs. FY 2021 Proposed Budget**

**THIS PROJECT WAS A NEW ENTERPRISE FUND FOR THE CITY IN FY2016. MANAGEMENT DESIRES TO CONTINUE.  
FOR DISCUSSION:**

Future of Three Sisters undetermined at this time; management must determine if they desire to continue operating the Refuge jointly with Fish & Wildlife or the Operation of the Refuge be the responsibility all the City in its entirety including potential improvements to the site.

***\*\*Budget reflects City in full operation of the Three Sisters Springs and includes state appropriation capital funds.***

**REVENUES**
